

Jesudas Antonyraj

Director of Engineering | Digital Transformation | E-Commerce & Cloud

Bangalore, India | +91-8147087972 | jesudasjj@gmail.com | linkedin.com/in/jesudasjj

Summary

Engineering Director with 19+ years of experience building and scaling e-commerce technology platforms across Tesco, Ascena Retail Group, Condé Nast, and Target Corporation. Track record delivering enterprise digital transformation programs: architected golden-source data platforms that drove 20% revenue growth, led Global Capability Center (GCC) workforce migration with zero productivity loss, and reduced security incidents by 90%. Executive MBA from Olin Business School, Washington University in St. Louis, and IIT Bombay, combining business strategy with engineering leadership.

Core Skills

E-Commerce Platforms, Cloud Strategy, AWS, Azure, GCP, Digital Transformation, Engineering Excellence, DevOps, CI/CD, GCC Leadership, Cost Optimization, Order Management Systems (OMS), Headless Commerce, Agile, Scrum, Stakeholder Management, P&L Management, Microservices, React, JavaScript, Java, RESTful APIs, GraphQL, Docker, Kubernetes, Observability, New Relic, Datadog, Splunk, Security Governance, ISO 27001, Team Building, Talent Retention, Vendor Management

Professional Experience

Software Development Manager (Director-Level) — Tesco Technology — India GCC

January 2022 – Present

- Own the engineering roadmap for Tesco's e-commerce data platform; delivered the "One Data, One Source" golden-source architecture across 8+ product lines, improving operational efficiency by 30% and contributing to a 20% increase in topline revenue.
- Founded and led a Center of Excellence combining DevOps automation, observability (New Relic, Datadog, Splunk), and security governance, reducing security incidents by 90% and cutting third-party vendor costs by 10% within 18 months.
- Built and retained a high-performance engineering organization of cross-functional squads; introduced structured career frameworks and data-driven 1:1s that improved retention by 65% and raised stakeholder NPS to 85%.
- Led cloud-native migration and CI/CD maturity initiatives on AWS and GCP, enabling weekly release cadence in place of quarterly release trains and reducing deployment risk by more than half.

Engineering Manager — Condé Nast

April 2021 – October 2021

- Optimized distributed systems architecture using microservices patterns and performance monitoring tools, increasing platform throughput by 25% for high-traffic digital publishing properties.
- Directed an ISO 27001-aligned compliance and security upgrade program covering encryption, automated testing, and access governance; achieved zero audit findings on first external assessment.

Engineering Manager — Ascena Retail Group

March 2018 – April 2021

- Led front-end engineering for 8 enterprise retail websites; standardized a React-based component library that cut development effort by 45% and reduced average delivery cycle from 6 weeks to 5 days.
- Led migration of 70% of the engineering workforce from South America to India during a business crisis, achieving zero productivity loss, zero client escalations, and significant annualized cost reduction.
- Conceived and delivered a hackathon-winning personalized coupon engine (React, RESTful APIs) that generated a 30% revenue uplift and was fast-tracked to production within 60 days.
- Reduced operational costs by 30% and improved team retention by 30% through Scrum maturity initiatives, workforce planning tools, and structured performance review cycles.

UI Technical Lead — Target Corporation

February 2015 – March 2018

- Accelerated feature delivery by 20% and reduced release cycles by 30% by introducing Agile project governance (Jira, Confluence) and continuous integration practices across 4 engineering squads.

Senior Web Designer — PaperPlane Solutions

October 2007 – November 2009

- Delivered web design and front-end development for client engagements.

Senior HTML Programmer — Moona Consulting

May 2005 – October 2007

- Built and maintained HTML-based websites and templates for client projects.

Education

Executive MBA — Leadership, Digital Transformation and Cost Management

Olin Business School, Washington University in St. Louis and IIT Bombay (Joint Global Programme)

Focus areas: Strategic Operations, Cost Optimization, Global Leadership, Digital Business Transformation, P&L Management

Additional Information

Languages: English (Proficient), Hindi (Proficient) • Frequent speaker on digital transformation and engineering excellence • Multi-time hackathon winner
